

Section 3: Substantive Changes Not Previously Reported

---

Reductions to date in the BMHS budget have not had substantive negative changes to the school's ability to meet any of the Standards. There has been re-alignment of the work that needs to be done. For example, the elimination of the Dean of Students position has required that the Housemasters handle all disciplinary matters for students. Additionally, two freshmen teams now exist to support the transition to high school and lend support in a pro-active manner to a group of students that historically required re-active discipline intervention.
