Assistant Principal*

*Dr. Damon C. Lewis,
Assistant Principal*

Greetings Ponus Ridge Community,

It is my pleasure to return to the Ponus Ridge family as an Assistant Principal. My career in Norwalk Public Schools began at Ponus Ridge in 2001 as a science teacher, and now I am back at Ponus in this exciting new capacity. During my initial weeks, I have observed wonderful examples of teaching, learning, and other positive student achievements. It is our goal to ensure that every student develops an understanding of the interconnectedness of their world, while providing them with the academic skills necessary to meet with success in high school and beyond.

It is my belief that high academic and behavioral expectations are directly connected to high levels of student achievement. At Ponus Ridge our expectation is that all students will learn while developing their unique skills to become a productive member of society. By focusing on this development and good citizenship, our students should come to school every day prepared with a readiness to learn.

I sincerely encourage you to review and support the efforts of our faculty and staff in the education of your child by routinely communicating with all of their teachers and administration. Strong parent and school connections are essential to student success. Together we can support your daughter/son to work to their full potential. Please know that we are here to support you and your child during their time at Ponus Ridge.

I look forward to getting to know you, as we participate in the success and achievement of your child while they learn and grow with us.

Victor Black Ed.D.
Assistant Principal
Ponus Ridge Middle School
